

Student Advisory Committee Statement on SR22-12

In response to the *SR22-12, "On Early Literacy Priorities"* which addresses the need for more structured literacy training in grades K-5, the Student Advisory Committee is in unanimous support of the passing of this resolution.

Members of the committee forwarded the following recommendations for further consideration by the board:

- Expanding the wording of the resolution AND/OR following up about 6-12 literacy.
- Changing language about intervention to specify whether any of it is specific to those with learning disabilities.
